Serial No. 09/849,729 RDID 0070 US

CLAIMS

We claim:

- 1. (withdrawn) A composition comprising isolated SVII virus.
- 2. (withdrawn) The composition of claim 1, wherein said isolated SVII virus comprises a polynucleotide sequence shown in FIG. 1.
- 3. (canceled) An isolated polynucleotide selected from the group consisting of;
- an isolated polynucleotide selectively hybridizable with a nucleotide sequence shown in FIG. 1,
- a complement of an isolated polynucleotide selectively hybridizable with a nucleotide sequence shown in FIG. 1,
- an isolated polynucleotide encoding a SVII protein or fragment of a SVII protein, and
- a complement of an isolated polynucleotide encoding a SVII protein or a fragment of a SVII protein.
- 4. (canceled) The isolated polynucleotide of claim 3, wherein said isolated polynucleotide is an antisense polynucleotide.
- 5. (withdrawn) A composition comprising:

an isolated SVII protein or fragment thereof.

- 6. (withdrawn) A vaccine composition comprising:
- an isolated SVII protein or fragment thereof; and
- a pharmaceutically acceptable excipient.
- 7. (withdrawn) The vaccine composition of claim 6, further comprising an adjuvant.

Serial No. 09/849,729 RDID 0070 US

8. (withdrawn) An expression vector comprising an isolated polynucleotide encoding a SVII protein or a fragment of a SVII protein.

- (withdrawn) An expression vector comprising an isolated polynucleotide, wherein transcription of said isolated polynucleotide results in the production of an SVII antisense polynucleotide.
- (withdrawn) An isolated polyclonal antisera that specifically binds to a SVII virus or a protein thereof.
- 11. (withdrawn) A monoclonal antibody which binds to a SVII virus or a protein thereof.
- 12. (withdrawn) A method for detecting SVII virus, comprising:
- contacting a sample with an antibody which specifically binds to SVII virus or a protein thereof; and

detecting complexes of said antibody and SVII virus or protein thereof.

13. (withdrawn) A method for detecting SVII virus, comprising:

contacting a sample with a probe polynucleotide which selectively hybridizes to a SVII polynucleotide; and

detecting hybridization of said probe with a SVII polynucleotide.

- 14. (new) An isolated polynucleotide comprising SEQ ID NO. 1.
- 15. (new) An isolated polynucleotide comprising a fragment of SEQ ID NO.1 at least 15 nucleotides in length.
- (new) An isolated polynucleotide of claim 15 comprising a fragment of SEQ ID NO. 1 at least 20 nucleotides in length.
- 17. (new) An isolated polynucleotide of claim 15 comprising a fragment of SEQ ID NO. 1 at least 25 nucleotides in length.
- 18. (new) An isolated polynucleotide of claim 15 comprising a fragment of SEQ ID NO. 1 at least 30 nucleotides in length.

Serial No. 09/849,729 RDID 0070 US

19. (new) An isolated polynucleotide of claim 15 comprising a fragment of SEQ ID NO. 1 at least 35 nucleotides in length.

- 20. (new) An isolated polynucleotide of claim 15 comprising a fragment of SEQ ID NO. 1 at least 40 nucleotides in length.
- 21. (new) An isolated polynucleotide of claim 15 comprising a fragment of SEQ ID NO. 1 at least 50 nucleotides in length.
- 22. (new) An isolated polynucleotide of claim 15 comprising a fragment of SEQ ID NO. 1 at least 60 nucleotides in length.
- 23. (new) An isolated polynucleotide comprising SEQ ID NO. 2.
- 24. (new) An isolated polynucleotide comprising a fragment of SEQ ID NO.2 at least 15 nucleotides in length.
- 25. (new) An isolated polynucleotide of claim 24 comprising a fragment of SEQ ID NO. 2 at least 20 nucleotides in length.
- 26. (new) An isolated polynucleotide of claim 24 comprising a fragment of SEQ ID NO. 2 at least 25 nucleotides in length.
- 27. (new) An isolated polynucleotide of claim 24 comprising a fragment of SEO ID NO. 2 at least 30 nucleotides in length.
- 28. (new) An isolated polynucleotide of claim 24 comprising a fragment of SEQ ID NO. 2 at least 35 nucleotides in length.
- 29. (new) An isolated polynucleotide of claim 24 comprising a fragment of SEQ ID NO. 2 at least 40 nucleotides in length.
- 30. (new) An isolated polynucleotide of claim 24 comprising a fragment of SEQ ID NO. 2 at least 50 nucleotides in length.
- 31. (new) An isolated polynucleotide of claim 24 comprising a fragment of SEQ ID NO. 2 at least 60 nucleotides in length.
